My Dear S. M. Waco,

You are very kind to write me of my father for which please rec many thanks. Most gladly would I throw down the many duties which both press and oppress me here and escaping from the dust and intolerable heat of this city wait at the bed side of the dear old man I owe him much. If he gets worse please let me know immediately. We are well, and hard at work. Tell my Father we do not forget him when we pray -

With best wishes for your health and happiness
