

Tübingen, deutsches Institut für ärztliche Mission

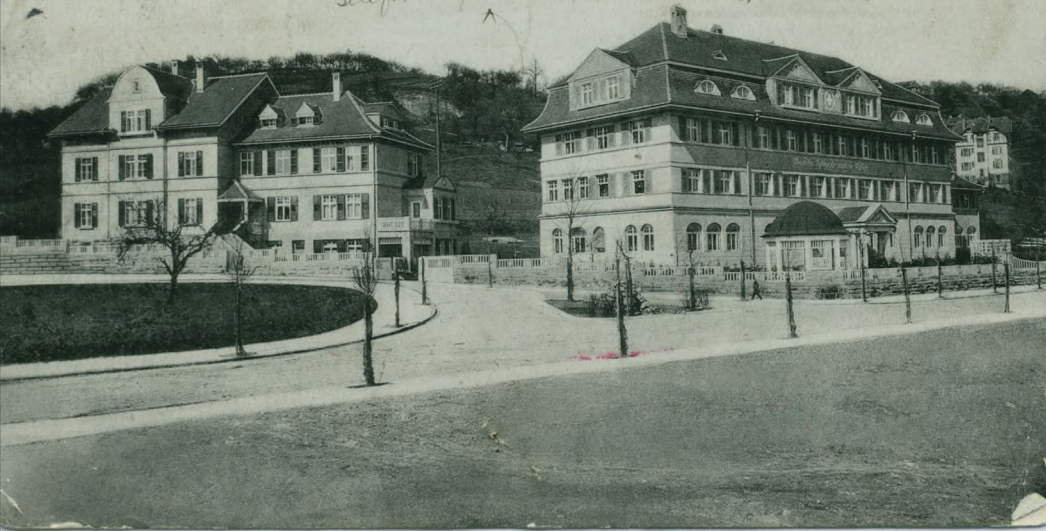

Home for lady medical missionaries.

Schwesterheim

Site for tropical hospital.

Home for physicians & special lecture rooms.

Hauptgebäude

Subingen, July 7th. 1910.
Dear Mr. White, As you are
so interested in missionary
medical schools, I sent you the
photo of the school established
here last fall in connection
with the regular University.
The two leading directors were
leading physicians in
India & Sumatra for ^{many}
of years and Dr. Finkel kindly
showed me the buildings and
gave me all the details. These
two buildings with fine outfit
cost \$95,000 and have all
been paid for. Now they establish
a hospital especially for tropical
diseases, I may give a detail
description in the Review.
Your letter reached me,
many thanks.
Yours truly L.R. Conradi.
